

New Selection Slips at Retail & Hospitality Locations

Coming Soon: Starting January 2019

Starting in January 2019, BCLC will be transitioning to all new selection slips in order to future-proof them for new technology.

All selection slips will changeover to new selection slips as inventory on current selection slips deplete with the exception of Lotto Max Regular Play & Combo Play, which will occur on May 11, 2019 to align with the new Lotto Max game enhancements.

Both old and new selection slips will work on the current Altura Lottery Terminals and Self-Service Terminals, with the exception of Lotto Max selection slips (the old ones will not work effective May 11, 2019).

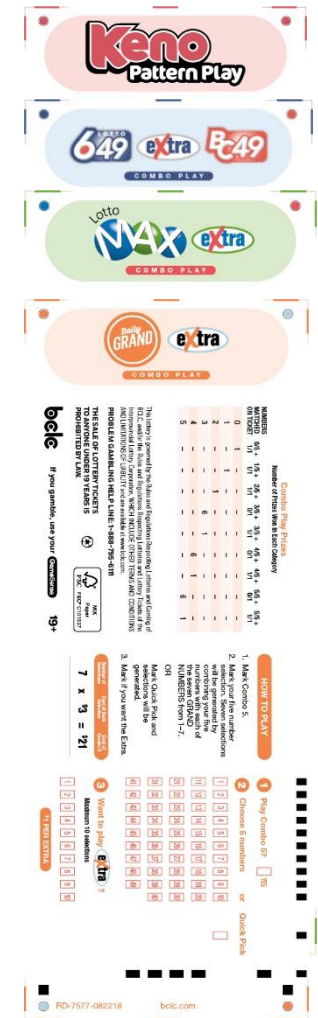

All new selection slips will be easily identified with updated packaging that includes the [Lotto! logo](#) and marked “2019” and should be used after you utilize your existing inventory first at your location.

Please note: There is no rush to have the updated versions of selection slips at your location right away. Changes to the selection slips are to pro-actively future-proof them for new technology as well as some visual refreshes.

What does this mean to me?

In order to reduce the carbon footprint, BCLC is requesting you check your selection slip inventory at your location and utilize existing inventory on hand prior to ordering multiple bundles of selection slips from your Inside Sales Representative (ISR) during your regular scheduled call cycle.

Starting on November 5, 2018, should you request selection slips, your ISR will limit the number of bundles to a maximum of two bundles per game to ensure your location cycles through existing inventory prior to new inventory shipping in 2019.
